

AICA pricing: pay as you go, or prepay for a lower rate

AICA charges by the page. Every page of a policy, SOP, work instruction, or other QMS document you run through an analysis counts toward your usage. What you pay per page depends on how you buy.

Start on Core at \$5 per page, billed monthly, with no upfront cost. Once you know your audit volume, prepay on Pro at \$4.20 per page and add page blocks that bring the rate as low as \$2.50. No plan locks you into an annual contract.

Plans and pricing

No annual contract on any plan!

Core

\$5 / page

Billed monthly for pages processed. No minimum, no upfront cost.

Best for: Emerging pharma and biotech teams with a focused QMS review or a defined inspection or audit-readiness project.

Core includes:

- » AI-powered QMS gap analysis
- » Regulatory citations and remediation guidance
- » FDA regulations (21 CFR)
- » Batch uploads and exportable reports
- » Enterprise security and controls
- » **5 user seats plus 1 admin**
- » Guided onboarding

Pro

RECOMMENDED

\$15,750

3,750 prepaid pages at \$4.20 per page, (about 150 SOPs).

Best for: Growing pharma, biologics, and CDMO quality teams running broader or more frequent QMS assessments.

Everything in Core, plus:

- » EU and Canadian regulations (coming soon), plus FDA
- » Unlimited seats
- » 5 FDA Group expert hours
- » Discounted page add-ons

Enterprise

Custom

A per-page rate set for your volume.

Best for: Large, multi-site organizations with complex QMS environments, high volumes, or multiple regulatory frameworks.

Everything in Pro, plus:

- » On-premises deployment
- » Early access to new features
- » **Rate lock:** your rate never resets to \$5 per page

PAGE ADD-ONS · PRO AND ENTERPRISE

- +1,000 pages \$4,200 · \$4.20/page
- +2,500 pages \$8,750 · \$3.50/page
- +10,000 pages \$25,000 · \$2.50/page

MORE ADD-ONS

- +1 active regulation \$1,200 each
- Flex Session, 60 min with an expert \$450 each

Flex Sessions work on every plan. Page blocks are bought with Pro or Enterprise.

How billing works

If you expect to process more than **3,150 pages (about 125 SOPs)**, Pro costs less than Core.

Core bills monthly. \$5 for each page you process that month. Stop or upgrade anytime.

Pro is prepaid. Buy 3,750 pages plus add-on blocks in one purchase. No subscription.

You'll know before you run out. Email alerts go to users and admins as prepaid pages run low.

Access never stops. Once prepaid pages are used, extra pages bill monthly at \$5 each.

Which plan fits your organization?

Your page count sets the price. These examples use our planning estimate of 25 pages per SOP.

TRYING AICA ON A FIRST BATCH OF DOCUMENTS

You want to run about 50 SOPs before committing to a full program.

Start with Core. Pay only for what you process, billed monthly. Move to Pro once the results earn a place in your audit plan.

PAGES	ESTIMATED COST	PER PAGE
1,250	\$6,250	\$5.00

CLEARING A DOCUMENT BACKLOG

You have about 250 SOPs that have drifted out of date and keep surfacing in audits.

Pro plus a 2,500-page add-on. Pro covers the first 150 SOPs and the add-on covers the next 100, all at prepaid rates.

PAGES	PACKAGE PRICE	PER PAGE
6,250	\$24,500	\$3.92

PLANNING A FULL YEAR OF AUDITS

You plan to audit about 500 SOPs this year across every audit type.

Pro plus a 10,000-page add-on. Together they cover about 550 SOPs, with room for revised and new procedures.

PAGES	PACKAGE PRICE	PER PAGE
13,750	\$40,750	\$2.96

AUDITING ACROSS SITES

You run several sites, high volumes, or more than one regulatory framework.

Talk to us about Enterprise. We set a per-page rate for your volume, and it never resets to \$5 per page.

Pricing questions answered

What counts as a page?

Each page of a document you run through an AICA analysis. A 25-page SOP uses 25 pages, so a short work instruction costs less than a long policy.

What happens when my prepaid pages run out?

Your access continues. Extra pages bill monthly at \$5 each until you buy a new package or add-on block. Email alerts warn users and admins before you reach the end.

Can I buy page blocks on Core?

No. Page add-ons come with Pro and Enterprise. Most Pro customers add pages when they buy, sized to the year's audit plan, since larger blocks cost less per page.

What does onboarding include?

A kickoff call with your team, on every plan. Bring your first batch of QMS documents and we'll run the first analysis with you, then follow up with user guides and check-ins.

Ready to size your package?

Tell us your rough document volume for the year and we'll map it to the right plan. Contact Eric Boyd, AICA Product Manager, at eboyd@thefdagroup.com.

Do I have to sign an annual contract?

No. Core bills monthly with no minimum. Pro and Enterprise are prepaid packages, not subscriptions, and you decide when to buy the next one.

How do I avoid a surprise bill?

Ask us to cap the pages your account can process, on any plan. The Usage Overview dashboard shows pages used at any time, and admins see the whole organization.

What are FDA Group expert hours?

Time with an FDA Group consultant to review your report, discuss root causes, and plan remediation. Pro includes 5 hours. Need more, or on Core? Flex Sessions are \$450 each.

Which regulations does each plan cover?

Core covers FDA regulations in 21 CFR for pharma and biologics. Pro and Enterprise add European and Canadian regulations, plus unlimited seats. Core includes 5 users and 1 admin.
